

**An Important Message**

**March 19, 2020**

**To Our Valued Clients, and Friends**

**We extend our thoughts and prayers to those around the world who have been affected by COVID-19, and we appreciate the time and effort by the healthcare communities and government entities who are working diligently and tirelessly to contain the virus.**

**As we monitor and support the recent guidelines issued by State and Local Agencies, we recognize and agree that the best way to reduce the spread of COVID-19 is by social distancing and limiting the number of people assembled in close quarters.**

**After careful consideration, and taking into account the health and safety of our valued amazing clients, colleagues, friends, and awesome employees, we are eliminating walk-in assistance at the Alliant office in fort Myers and Naples. The doors will remain closed to the general public beginning 9 am March 23, 2020 until 9 am April 13, 2020. No meetings will be conducted in the Alliant offices until further notice.**

**All of our employees will continue to work diligently during this time period to make sure that all client business is conducted in a timely manner. Please feel free to contact us via telephone or email. You may also visit our web site. Alliant Licensed Community Association Managers (CAM) are equipped with cell phones, and laptops and are capable to work from a remote location if needed. They will continue to communicate and stay in touch with all board members during this time, and they will visit your community on a regular weekly schedule.**

**Please know your community and your investment is important to us. We will continue to be available to serve you. Emergencies will be handled accordingly.**

**As always, we appreciate and thank you for your business. We thank you in advance for your continued understanding and patience. Please stay healthy.**

**Very truly yours.**

**Millie K. Strohm, President & CEO**
